Noida, Uttar Pradesh India

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript (Basic), SQL, HTML5, CSS3
- **Frontend:** React.js, Redux Toolkit, React Router, Tailwind CSS, Responsive UI, REST API Integration
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication & Authorization
- **Database:** Microsoft SQL Server & MongoDB
- **Tools:** Git, GitHub, GitHub Actions (Basic CI/CD), Postman, Redis & RabbitMQ
- **Core Skills:** Production Debugging, Root Cause Analysis, REST API Development, CRUD Operations, MVC Architecture, Agile/Scrum, Problem Solving

SUMMARY

Full Stack Developer with 1+ years of professional experience building scalable web applications using **React.js, Node.js, Express.js, JavaScript, SQL, MongoDB**, and **REST APIs**. Experienced in developing backend services, integrating REST APIs, optimizing databases, **resolving 100+ production issues**, and delivering production-ready solutions in Agile environments.

EXPERIENCE

[Trayistats AI Technology](#)

Software Developer

10/2025 – Present | Noida, Uttar Pradesh

As a Software Developer at **@Trayistats AI Technology**, I worked on enterprise market research products including **Trayistats Admin Tool**. Responsibilities included:

- Developed and maintained scalable enterprise web applications using React.js, Node.js, Express.js, JavaScript, MSSQL, and REST APIs for market research platforms.
- Configured client-specific survey workflows, participant management modules, and business rules using JavaScript, SQL, and REST APIs.
- Developed and maintained REST APIs using Node.js, Express.js, and Microsoft SQL Server.
- Debugged and resolved 100+ production issues across frontend, backend, APIs, and SQL, performing root cause analysis to improve application stability and reliability.
- Designed complex SQL queries, joins, stored procedures, and database optimizations for enterprise applications.
- Optimized SQL queries and database configurations, reducing report generation time by 35%.
- Collaborated with QA, Product, Business, and cross-functional teams throughout feature development, production support, and CI/CD workflows.
- Collaborated using Git, GitHub, code reviews, and Agile workflows.

Software Developer Intern

07/2025 – 09/2025 | Noida, Uttar Pradesh

During my internship at **@Trayistats AI Technology**, I contributed to live enterprise applications including **QuickPoll India** (Survey Creation Platform) and **ZunaDesk** (Task Management Platform). Responsibilities included:

- Developed REST APIs using Express.js for enterprise applications.
- Debugged and fixed 30+ frontend and backend defects, improving application performance and user experience.
- Developed and enhanced React.js components for production modules.
- Improved SQL queries and API response times through query optimization.
- Collaborated with senior developers during code reviews and debugging sessions.

PROJECT

[Scan My Meal](#)

12/2024 – 04/2025

- Developed a production-ready **MERN stack** food ordering platform with secure **User** and **Admin** portals.
- Designed and implemented **RESTful APIs, JWT authentication**, and **role-based authorization** for secure application access.
- Integrated **Stripe** payment gateway, **Cloudinary** image management, and email-based password recovery using Nodemailer.
- Built responsive React.js interfaces using **Redux Toolkit, Tailwind CSS, Axios**, and **React Router**.
- Implemented product management, search, filtering, cart, profile, and order management modules with MongoDB.
- Deployed the application using **Netlify** (Frontend) and **Render** (Backend) with production environment configuration.

EDUCATION

Master of Computer Applications (MCA)

04/2023 – 04/2025 | Barabanki

Shri Ramswaroop Memorial University

Bachelor of Science (Computer Applications)

08/2020 – 06/2023 | Kanpur

Bramhanand PG College

CERTIFICATIONS

- IBM Web Development Fundamentals
- Python Programming – Coding Blocks
